

# SECTIONS DROPPED FROM EPACT OF 2005 DISCUSSION DRAFT TO COMMITTEE PRINT

Section	Description
<b>TITLE I: ENERGY EFFICIENCY</b>	
106	Energy Savings Performance Contracts pilot program for nonbuilding applications
110	Increased use of recovered mineral component in federal funded projects involving procurement of cement or concrete
<b>TITLE II: RENEWABLE ENERGY</b>	
205	Use of photovoltaic energy in public buildings
211	Short title
212	Competitive lease sale requirements
213	Direct use
214	Royalties and near - term production incentives
215	Geothermal leasing and permitting on Federal lands
216	Review and report to Congress
217	Reimbursement for costs of NEPA analyses, documentation and studies
218	Assessment of geothermal energy potential
219	Cooperative or unit plans
220	Royalty on byproducts
221	Repeal of authorities of Secretary to readjust terms, conditions, rentals and royalties
222	Crediting of rental toward royalty
223	Lease duration and work commitment requirements
224	Advanced royalties required for suspension of production
225	Annual rental
226	Leasing and permitting on Federal lands withdrawn for military purposes
227	Technical Amendments
246	Corps of Engineers hydropower operation and maintenance funding
247	Limitation on certain charges assessed to the Flint Creek Project, Montana
248	Reinstatement and transfer
<b>TITLE III: OIL AND GAS</b>	
311	Definition of Secretary
312	Program on oil and gas royalties in-kind
313	Marginal property production incentives
314	Incentives for natural gas production from deep wells in the shallow waters of Gulf of Mexico
315	Royalty relief for deep water production
316	Alaska offshore royalty suspension
317	Oil and gas leasing in the National Petroleum Reserve in Alaska
318	Orphaned, abandoned, or idle wells on Federal land
319	Combined hydrocarbon leasing
321	Alternate energy - related uses on the Outer Continental Shelf
322	Preservation of geological and geophysical data
323	Oil and gas lease acreage limitations
324	Assessment of dependence of State of Hawaii on oil
325	Deadline for decision on appeals of consistency determination under CZMA of 1972
326	Reimbursement for costs of NEPA analyses, documentation, and studies.
331	Bilateral international oil supply agreements
341	Office of Federal Energy Project Coordination
342	Federal onshore oil and gas leasing and permitting practices
343	Management of Federal oil and gas leasing programs
345	Estimates of oil and gas resources underlying Federal land
347	Pilot project to improve Federal permit coordination
352	Renewable energy on Federal land
354	Sense of Congress regarding development of minerals under Padre Island National Seashore
357	Study on lease exchanges in the Rocky Mountain Front
359	Livingston Parish mineral rights transfer

**TITLE IV: COAL**

413	Integrated gasification combined cycle technology
415	Integrated coal/renewable energy system
421	Repeal of the 160 - acre limitation for coal leases
422	Mining plans
423	Payments of advance royalties
424	Elimination of deadline for submission of coal lease operation and reclamation plan
425	Amendment relating to financial assurances with respect to bonus bids
426	Inventory requirement
427	Application of amendments

**TITLE V: INDIAN ENERGY**

501	Short Title
502	Office of Indian Energy Policy and Programs
503	Indian energy
504	Four Corners transmission line project
505	Energy efficiency in federally assisted housing
506	Consultation with Indian tribes

**TITLE VI: NUCLEAR MATTERS**

628	Decommissioning pilot program
637	Uranium enrichment facilities

**TITLE VII: VEHICLES AND FUELS**

702	Neighborhood electric vehicles
703	Credits for medium and heavy duty dedicated vehicles
755	Conserve by bicycling program
756	Reduction of engine idling of heavy - duty vehicles

**TITLE VIII: HYDROGEN**

No Sections Dropped

**TITLE IX: RESEARCH AND DEVELOPMENT**

923	Study of marine renewable energy options
937	Fischer - Tropsch diesel loan guarantee program
951	Science
955	United States participation in ITER
956	Catalysis research and development program
957	Nanoscale science and engineering research, development, demonstration and commercial applications
958	Advanced scientific computing for energy missions
959	Genomes to Life program
960	Fission and fusion energy materials research program
961	Energy - Water Supply Program
964	United States - Mexico energy technology cooperation
965	Western Hemisphere energy cooperation
971	Availability of funds.
972	Cost sharing.
973	Merit review of proposals.
974	External technical review of departmental programs
975	Improved coordination of technology transfer activities.
976	Federal laboratory educational partners
977	Interagency cooperation.
978	Technology Infrastructure Program.
979	Reprogramming.
980	Construction with other laws.
981	Report on research and development program evaluation methodologies.
982	Department of Energy Science and Technology Scholarship Program.
983	Report on equal employment opportunity practices.
984	Small business advocacy and assistance.
985	Report on mobility of scientific and technical personnel.
986	National Academy of Sciences report.
987	Outreach.
988	Competitive award of management contracts.
989	Educational programs in science and mathematics.

**TITLE X: DOE MANAGEMENT**

No Sections Dropped

<b>TITLE XI: PERSONAL AND TRAINING</b>	
1101	Training guidelines for electric energy industry personnel
1102	Improved access to energy - related scientific and technical careers
1103	National Power Plant Operations Technology and Education Center
1104	International energy training
<b>TITLE XII: ELECTRICITY</b>	
No Sections Dropped	
<b>TITLE XIII: TAXES</b>	
Title XIII	Taxes
<b>TITLE XIV: MISCELLANEOUS</b>	
1401	Denali Commission programs
1402	Rural and remote community assistance
1445	Use of granular mine tailings
<b>TITLE XV: ETHANOL AND FUELS</b>	
1512	Resource center
<b>TITLE XVI: STUDIES</b>	
1602	Natural gas supply shortage report
1603	Split - estate Federal oil and gas leasing and development practices
1604	Resolution of Federal resource development conflicts in the Powder River Basin
